

Make companies act?

sustainAX is a specialist in the private and the small segments

Make companies act?

Mandate definition?

Only to improve expected risk adjusted profits

- Waste of time to think otherwise

sustainAX is a specialist in the private and the small segments

Make companies act?

Mandate definition?

Only to improve expected risk adjusted profits

- Waste of time to think otherwise
- *So, let's focus on identifying risks and*
- *Help companies understand their risks by doing nothing*

sustainAX is a specialist in the private and the small segments

Make companies act?

Quick fix?

No, it will take time for voluntary action

- Now it is all about reporting of Principal Adverse Impacts (SFDR PAI)
- It will take time to get the reporting in place and make companies understand the risk they have

sustainAX is a specialist in the private and the small segments

Make companies act?

Quick fix?

No, it will take time for voluntary action

- Now it is all about reporting of Principal Adverse Impacts (SFDR PAI)
- It will take time to get the reporting in place and make companies understand the risk they have
- *Only through regulation and forced pricing mechanisms we can expect quicker changes*
